Regarding: Terms & Conditions

From: Linda Fuller

To Whom It May Concern:

Below please find R.J. Products, LLC's Terms & Conditions for any and all quotes submitted to you our customer. This page has become an attachment to all quotes submitted due to the fact that many of our customers prefer to use their own Request for Quote Forms.

In an attempt to protect R.J. Products, LLC from incurring all of the responsibility of the vendors that are associated with the work that we do, it is necessary to make the below Terms & Conditions a standard attachment for purchasing from R.J. Products, LLC.

Effective July 2008 these Terms and Conditions will now become a part of any purchase order issued from a quote that has referenced these terms.

Should you have any questions regarding the quote or the terms and conditions, please feel free to contact me.

Thank You For Your Patronage.

TERMS & CONDITIONS

- I. Parts are quoted per Blueprint Specification based on General Machining Practices. Verbal requests for deviation from blueprint are not acceptable. All deviations must be submitted in writing and are subject to review for pricing and delivery.
- II. All jobs utilizing raw materials are subject to a 10% scrap allowance, unless otherwise negotiated during quoting. Please keep this in mind when supplying material or specifying "no over-runs" on purchase orders. Because of this final quantities may vary at completion of final production.
- III. If a request for quote shows material to be customer supplied castings/forgings. The replacement cost of these castings/forgings must be supplied at the time of quoting if the customer will require us to reimburse them the cost of lost castings/forgings. If no value is stated on the quote, it is assumed that R.J. Products, LLC takes no responsibility for lost castings/forgings.
****The attached "Castings/Forgings Addendum" applies****
- IV. If job quoted is utilizing customer supplied material (including Castings/Forgings) and we are responsible for reimbursement. There will be a 10% scrap allowance per process. IE: If parts are to be lapped, machined and plated, there will be a 30% scrap allowance on this job.
- V. A minimum of 2 blueprints are required on all jobs, fax copies are acceptable for quoting, however no jobs will be accepted if hard copies of blueprints cannot be supplied, electronic blueprints will be acceptable.
- VI. The jobs on this quote are subject to a 0% Energy Surcharge and \$0.00 Certification Charge, unless otherwise stated.
- VII. Formal Expedite Charges and NRC's are quoted on a "per job" basis and will be in addition to any expedite charges incurred at outside processing. In addition, these charges will be billed as one charge and may not be broken down between parts into the unit price. (applies to Purchase order change notices only).
- VIII. All prices quoted are less shipping & handling charges.
- IX. All lead times quoted are "estimates" only. We offer only our best guess at the lead time for outside processing. All lead times quoted are based on the current production schedule, which is subject to change at any time.
- X. R.J. Products will not be responsible for shipping cost on returned parts if the reject is a direct result of an outside processor.
- XI. All items returned to R.J. Products must reference an RMA number and be shipped ground.
- XII. All Jobs that are shipped to customers from R.J. Products via UPS, DHL, FedEx or any other common carrier will be insured for the purchase order value of the parts shipped. This applies to Pre-paid and Collect shipments. In the case where the customer opts to waive the insurance, the request must be done in writing. The customer then assumes responsibility for the shipment and any missing/lost parts that are a result of shipping, once the parts have left our facility. The invoices for these missing/lost items will still be due and payable as scheduled.
- XIII. By placing purchase orders with R.J. Products, LLC purchaser has agreed to price, delivery and all terms & conditions stated.
- XIV. All pricing quoted includes R.J. Products, LLC Standard Inspection Report and First Article Forms as well as Material and all OSP certifications. If forms or certifications other than this is required (ie: AS9102) it must be requested in writing at the time of quoting.
- XV. All pricing quoted includes a single shipment unless otherwise stated at the time of quoting.

Castings/Forgings Addendum

This addendum has been included to add additional terms and conditions for the machining of customer supplied castings & forgings.

In order for an order to be accepted by R.J. Products, LLC to machine customer supplied castings/forging, this addendum will need to be signed and will make up a part of the purchase order.

- R.J. Products, LLC *is not* responsible for replacement cost of Castings/Forgings.
(Items I, II & III below apply)
- R.J. Products, LLC *is* responsible for replacement cost of Castings/Forgings.
(Items I, II & IV below apply)
- I. R.J. Products, LLC is not responsible for any inspection of the castings/forgings upon receipt from the customer, prior to the start of machining. The customer should inspect the castings prior to forwarding them to R.J. Products.
 - II. If during the machining/inspection process, the castings are found by R.J. Products to be incorrect on the material part. The customer will be responsible for the cost of machining that has already been done on the part.
 - III. We are not responsible for the cost of any castings/forgings that were scrapped during the machining process. We make every effort to ensure that we return all castings/forgings back to the customer completely machined and into print, however occasionally there will be loss that is out of our control.
 - IV. If R.J. Products, LLC is to be responsible for the cost of the castings/forgings then item IV of the Terms & Conditions section of form TC03RJ will apply to this addendum and sub sequentially item III of this addendum will not apply.
